HOW TO CALCULATE YOUR BASE MONTHLY RATE

This guide lists base monthly rates. The base rate is the maximum amount you will pay every month before applying any cost savings that you may be eligible to receive. If you qualify for cost savings, your rate will be less than the base rate.

BASE MONTHLY RATE CALCULATION INSTRUCTIONS

To calculate how much you will pay each month for your health coverage:

- Identify the names and ages of all family members for whom you are buying coverage.
- Find the page in this Rate Guide for the county where the contract holder* has a permanent mailing address.
- The plans we offer are listed across the top of the page. Locate the plan(s) that interest you.
- In the "Age" column on the left of the page, locate the age of each family member who will be covered on the policy.
- Match the age of each family member who will be covered on the policy to the rate under the plans you are considering.
- If the individual family member has not used a tobacco product in the last six months, use the rate in the "Non-Tobacco" column for that member. Rates for children under age 21 are strictly "Non-Tobacco."**
- If an individual family member has used a tobacco product in the last six months, use the rate in the "Tobacco" column for that member.**
- If you are a two-parent family with more than three children under age 21, you are only obligated to include rates for you, your spouse and your three oldest children. Your remaining children will be automatically covered under your policy, if you include them on your application as eligible dependants, but without a rate listed with their names.
- Use the convenient chart on the right side of the rate page to list the rates for each family member for your first and second choice plans.
- Add the numbers in the "Rate" columns to find your total base monthly rate for your first and second choice plans.

CHILD-ONLY POLICIES

Child-only policies are available. Each child enrolling in a policy without at least one parent must enroll under a separate policy.

CATASTROPHIC COVERAGE

Catastrophic plans are only available to individuals under age 30 or those who meet financial hardship requirements. Go to **healthcare.gov** for more information.

DO NOT CANCEL ANY CURRENT HEALTH INSURANCE COVERAGE IN RELIANCE ON THIS INFORMATION. These premium rates are subject to change at any time. Premium rates are valid as of the effective date of coverage and are calculated according to the information that you have entered. This document is not a contract. The complete terms, provisions, and conditions concerning coverage are described in the actual policy. Please contact us for specific requirements. *If you are over 21 years of age, find the county where you reside. If you are under 21 years of age, either find the county where you reside or the county where you reside with your parent or guardian. **This does not include the religious or ceremonial use of tobacco.

COST SAVINGS' OPTIONS

There are two new ways you may qualify to save costs, with government programs designed to help make health coverage more affordable for working families and people with modest incomes.

- Premium tax credits are paid directly to the insurance company to lower the cost of your monthly premiums.
- Cost sharing reductions could lower the out-of-pocket costs you pay when you get care, such as copayments.
- American Indians and Alaska Natives who are members of federally-recognized tribes may be eligible for additional cost-sharing reductions. For more information, go to **healthcare.gov**.

To be eligible for these cost savings:

- Submit an application to the government online through the Health Insurance Marketplace at **healthcare.gov**, by mail or by phone. Eligibility for cost savings is based on your household income, the number of people in your household and your health coverage needs. You do not need to provide a medical history. Filling out the application may take up to 30 minutes. You will see your calculated savings immediately.
- When you apply, make sure you have:
 - a. Social Security Numbers (or document numbers for legal immigrants) for everyone in your family who needs to have health coverage
 - b. Employer and income information for everyone in your family who needs to have health coverage
 - c. Health insurance policy numbers for anyone who currently has health coverage

ENROLLING IN A PLAN

To take advantage of cost-savings' options, you must enroll in an individual plan through the Marketplace at **healthcare.gov**, by mail or by phone. Using government tax credits or cost-sharing reductions is optional. If you are eligible for tax credits, you can enroll in any of the metal plans. If you are eligible for cost-sharing reductions, you must enroll in a Silver plan.

If you are not eligible for cost savings, you can still shop for plans directly from us or through the Marketplace at **healthcare.gov**. There, you can compare a variety of plans that we offer designed to fit your needs and budget. You can also apply for one of our plans directly, with the help of one of our Customer Service representatives or your local agent.
